EXPERIENCE

TRADELYZERS, *Full Stack Developer Intern* | Remote   *July 2023 - ongoing*
- Actively contributing to a dynamic project as a **Full Stack Developer** ,leading the integration of **5 ML-Tools** , ensuring a seamless synergy of technology solutions.
- It is a cutting-edge **MERN** stack application powered by **ML & DL** Technologies for Tools.

QUANTUM AI GLOBAL, *Software Developer Intern* | Remote   *Aug 2023 - ongoing*
- Contributing as backend developer to project that involves advanced resume filtering using **ATS** (Applicant Tracking System) technology and developing **robust** features for an employee management system
- Our project leverages **Node,Express** for the backend, **PostgreSQL** for the database, and employs AI and ML algorithms to develop an advanced **ATS** for intelligent resume filtering .

EDUCATION

8.86/10.0 **BTech in Computer Science And Engineering**, *Gayatri Vidya Parishad College Of Engineering*   *2020-24*
9.94/10 **Intermediate - MPC** , *K.S.N Junior College*   *2018-20*

POSITIONS OF RESPONSIBILITY : Technical Lead of IEEE SB GVPCE(A) | Cisco Campus Ambassador (2022-2023)

SKILLS

PROGRAMMING : C , C++ , HTML5 , CSS , Javascript ,PHP, Familiar : python ,Java
LIBRARIES : React.js ,Express.js , Node.js , Bootstrap , JQuery .
DATABASES : MongoDB , SQL ,PostGreSql
TOOLS : Git , Github , Postman .
COURSEWORK : Data Structures , Algorithms , Oops ,Computer Networks ,DBMS , Operating Systems

CERTIFICATIONS : COURSERA - ALGORITHMIC TOOL BOX | CISCO - NETWORKING ESSENTIALS
UDEMY-FULL STACK DEVELOPMENT (MERN) | NPTEL- C PROGRAMMING

PROJECTS

ProSeller   *link*
A robust e-commerce platform
- features including product filtering, shopping carts, and seamless **PayPal** payment integration and an intuitive admin dashboard for simplified management of the **e-commerce** platform, enhancing operational **efficiency**.
- **full-stack** approach with **Redux** Toolkit for state management, ensuring seamless data handling and user interaction throughout the project.

SmartBizFilter   *link*
SMART-INDIA-HACKATHON-PROJECT
- Designed a **platform** with multiple filtration steps the identification of potential students for the **ASIIM** scheme.
- Implemented **chat functionality** to facilitate seamless communication between selectors and students.
- Established the project's core infrastructure with the versatile **LAMP** stack, leveraging the strengths of Linux, Apache, MySQL, and PHP for comprehensive **full-stack** development.

DevConnector   *link*
Social NetWork For Developers
- This application is built to provide the **developers** ability to showcase their profiles to **connect** themselves.
- social media platform for developers, implementing user **authentication**, profile management, and interactive post-sharing features.

Achievements

2022   **National Finalist**, SMART INDIA HACKATHON
2022   **AIR -2234 ,** Google Kickstart
2022   **AIR-76 ,** Code Gladiators
2021   **Top 2% National Wide ,** NPTEL C Programming
         Solved 500+ Problems , on LeetCode , GFG, Codestudio , codechef |GSSOC 2023-Open Source Contributor

CODING PROFILES: LeetCode | GeeksforGeeks | Codechef
